ICT FACULTY AUDIT

The ICT Leaders Team would like to undertake an 'audit' of the use of ICT within each KLA. The purpose of the audit is to examine current practices and, in collaboration with the Head Teacher, identify ways in which the ICT Leaders Team can best support your use of ICT as a teaching and learning tool. As a result of this audit it is envisaged that a professional learning plan can then be developed for each KLA and appropriate support and funding can be given.

In consultation with the ICT Leaders Team, please complete the following questions on the use of ICT as a teaching and learning tool within your KLA/Faculty.

Focus Questions
1. What are your syllabus requirements concerning ICT?
2. How is ICT embedded in your faculty program?
3. Is ICT included in assessment tasks? If so, how?
4. How is ICT being used in your faculty as a teaching and learning tool?

5. What strategies have you implemented to share ICT resources and best practice?

6. What do you consider to be the most effective enablers of the use of ICT in your faculty?

7. What do you consider to be the inhibitors to the use of ICT in your faculty?

8. What are your future plans for the use of ICT as a teaching and learning tool in your faculty?
